National HouseCheck offers FREE HouseFax Report with every home inspection in Greater Philadelphia Area

BOISE, Idaho, Monday, September 30, 2019 – National HouseCheck Corporation is adding a little extra to the Greater Philadelphia Area real estate market, offering free HouseFax Property History reports with every home inspection. Combined with HouseCheck’s comprehensive home inspections, HouseFax reports help provide the most detailed and transparent look into a home’s history and condition so you can “know before you buy”.

“More reliable information puts you in the best position to make the right decisions when it comes to buying or selling a home,” says HouseCheck Chairman and CEO, Dennis Conforto. “HouseFax reports help to tell the complete story of a home, placing the facts in the hands of our clients, bringing peace of mind and confidence to the home buying experience.”

For every HouseCheck home inspection scheduled in the Greater Philadelphia Area, a HouseFax report will be provided to both the home buyer/seller and their Real Estate agent at no extra charge. This special package will help to ensure all those involved in real estate transactions are equipped to make the most informed decisions when it comes to buying or selling a home.

“HouseCheck home inspections and HouseFax reports are complimentary pieces that tells you where a home is and where it’s been,” says HouseCheck President and COO, Bill Klehm. “Together they deliver an unrivaled level of insight into a home that can’t be found anywhere else.”

Billy Edwards, HouseCheck Senior VP, Strategic Partnerships and CSO, adds, “HouseFax pulls property and neighborhood data from numerous sources to provide homebuyers and sellers important historical information about a home including building permits, reported fires, water damage and more. The data provided delivers the most comprehensive insight into a home’s true condition.”
